Organization Briefing	<p>Trading Emissions PLC was incorporated in the Isle of Man on 15 March 2005 for the purpose of investing in environmental and emissions assets. The main investment objective is to make capital profits from purchasing emissions assets at appropriate prices. The core part of the portfolio is expected to be a long position in carbon assets, although some trading may take place. The Company also intends to invest in other selected emissions assets. In additions, the Company will seek to generate income from the provision of finance for selected programmes such as aggregation, monetisation, collateralisation and other innovative approaches to carbon trading markets.</p> <p>Trading Emission' s investments will be in a range of environmental instruments with a strong focus on the units produced by projects developed under the Clean Development Mechanism</p>
