	Mercuria Energy Trading S.A., headquartered in Switzerland is an international energy trading company active in both physical and derivative trading markets over a wide spectrum of energy products, such as crude oil and refined petroleum products, natural gas, power, biodiesel, vegetable oils, coal and carbon emissions certificates. In 2007, the company traded a total of 61 million tons of physical oil and petroleum products, with a turnover of USD34 billion. In 2008, it	

Organization Briefing

witnessed a trade volume of 82 million tons of physical oil and petroleum products, with a turnover of USD45 billion. Mercuria Energy is one of the world's five largest independent energy traders, enjoying an aggregated credit line of 11 billion dollars from banks. In carbon emissions market, Mercuria is an important trader in four major European carbon exchanges: ECX, Bluenext, Nordpool and EEX. In Bluenext, the European leading spot carbon exchange. In 2008, CER spot trading volume done by Mercuria has reached 13 million tons.
