|                           | <p>Camco is a leading player in the origination, co-development and placement of carbon credits under the Kyoto Protocol. Camco works with industrial companies and utilities to identify and develop greenhouse gas emission reduction projects, managing the entire process from project initiation to carbon credit delivery. We help to maximize the volume of credits produced and facilitate their placement with purchasers in the international carbon market.</p> <p>This 'origination to delivery' capability provides greater clarity and management of carbon credit</p> |   |

Organization Briefing

risks, adding value to both sellers and buyers participating in Camco's transactions. A first-mover in the rapidly emerging sector of greenhouse gas emissions trading, CAMCO International draws on over 20 years experience in sustainable energy project development worldwide and on over 6 years experience in JI and CDM project development. CAMCO is leveraging this experience to assist partners in optimizing opportunities and in overcoming risks associated with securing and developing carbon assets.

Camco is a market leader in carbon credit origination in China and Russia, two of the largest potential markets for carbon credits, as well as Eastern Europe and Africa. Now Camco has offices in Jersey, Beijing, Moscow, Vienna, Johannesburg and London.

Camco is a Public Limited Company, having been admitted to the London Stock Exchange's Alternative Investment Market on 25 April 2006, and raised £24.9 million.
