Redox International Consulting Co. Ltd. engaged in developing environmental		

Organization Briefing

technology projects, currently focuses on CDM projects development in the fields of renewable energy power generation, recycling of industrial waste heat, coal bed gas, chemicals, integrated treatment of refuse and agriculture etc. It also provides consulting service for commercializing renewable energy project development, carbon audit and carbon finance counseling.

Redox provides superior CDM consulting services and related technology and financing services :

- * Assist Chinese enterprises in identifying, planning and declaring CDM projects, including selection, development and applications of the methodology; Developing and compiling PIN, PDD, monitoring Project Plan and other application documents;

- * Assist the project owners in passing DOE Validation; EB registration; projects monitoring, Verification and Certification; realization of the CERs revenue; Assist the project owners in negotiating with buyers and signing the ERPA, avoiding potential risk;

- * Provide the project owners with professional and systematic training in CDM and bring profit for them;

- * Provide comprehensive carbon footprint, carbon audit and carbon finance counseling;

Redox's core technical team are composed of elites who come from the Chinese Academy of Sciences and other renowned universities and research institutions, thus Redox enjoyed strong technical force; Redox keep good cooperation with international demanders of CERs including enterprises, agencies and carbon funds who are from Italy, Germany, France, Britain, Spain, Japan etc. , till now, Redox has gained highly recognition and trust from many major renewable energy project owners, CERs buyers and DOEs through their cooperation.

Redox seeks the cooperation with CERs buyers, developers or project owners who will enjoy its reliable and high quality consulting service.
