Organization Briefing	<p>An Introduction of CPI CARBON CPI CARBON ASSET MANAGEMENT CO., LTD. (CPI CARBON, or "CPI CDM Development Centre" founded in 2006) is the specialized consulting enterprise engaging in the Greenhouse Gas (GHG) emission reduction business under China Power Investment Corporation (CPI) and China Power Complete Equipment Co., Ltd. (CPCEC). During the past 2 years since its foundation, CPI CARBON has been providing services for more than 50 new-energy projects spread over 20 provinces and autonomous regions on CDM development, VER development, and carbon financing. CPI CARBON has devoted great efforts in the development of CDM projects in the field of hydropower, wind power, bioenergy, solar power, waste heat recovery in cement industry, treatment and recycling of waste gas of aluminum smelter, ultra super-critical power generation, and coal mine methane utilization, etc. Domestic customers of CPI CARBON include large power corporation, metallurgical industry, local energy enterprises and private companies, and foreign partners include national governments, famous corporations, consortiums, and large financial institutions. CPI CARBON has assisted in the signing of Emission Reduction Purchase Agreement for a good number of projects and the revenue from CDM can add 0.13Yuan/kWh or so to the electricity price of new-energy projects. Meanwhile, CPI CARBON takes its important part in the study and development of new methodologies for power generation adopting ultra super-critical units and integrated gasification combined cycle. CPI Carbon renders specialized CDM related services to the customers as follows: 1. Consultancy services in Drafting the CDM part in the Feasibility Study 2. Developing Project Design Document (PDD) 3. Obtaining LoA from Chinese DNA 4. Coordinating with DOE for validation 5. Applying registration with the EB 6. Coordinating with verification/certification With the philosophy of PLAN, PROCEDURE, PERFECT, PREEMINENCE, CPI CARBON aims at devoting to the GHG emission reduction and green energy and benefiting the human society.</p>
