Organization Briefing	<p>Founded in March of 2003, Beijing Keji Consulting Co., Ltd ( BKC for short) is one of the pioneers that run CDM business in China. To maximally meet the various demands from different clients, BKC provides flexible service mode, not only the one-stop service from CDM origination, evaluation to the CER trading, but also the technical supports, under the customers' requirements, through the whole process of CDM development. The technical services BKC provides are mainly related to the CDM training and consultancy, the methodology study, the project baseline identification and additionality determination, the estimation of emission reductions, preparation of project documents (including PIN, PDD, Monitoring Plan etc.), assistance in the application of CDM projects from the international and domestic organizations and assistance with the designated third party authentication on the project and emission reductions, etc. .</p>
